

Regional Collaboration Centre (RCC)

St. George's, Grenada

Global DNA Forum

Bonn, 20 September 2017

Dr. Randall Waechter

Core Activities

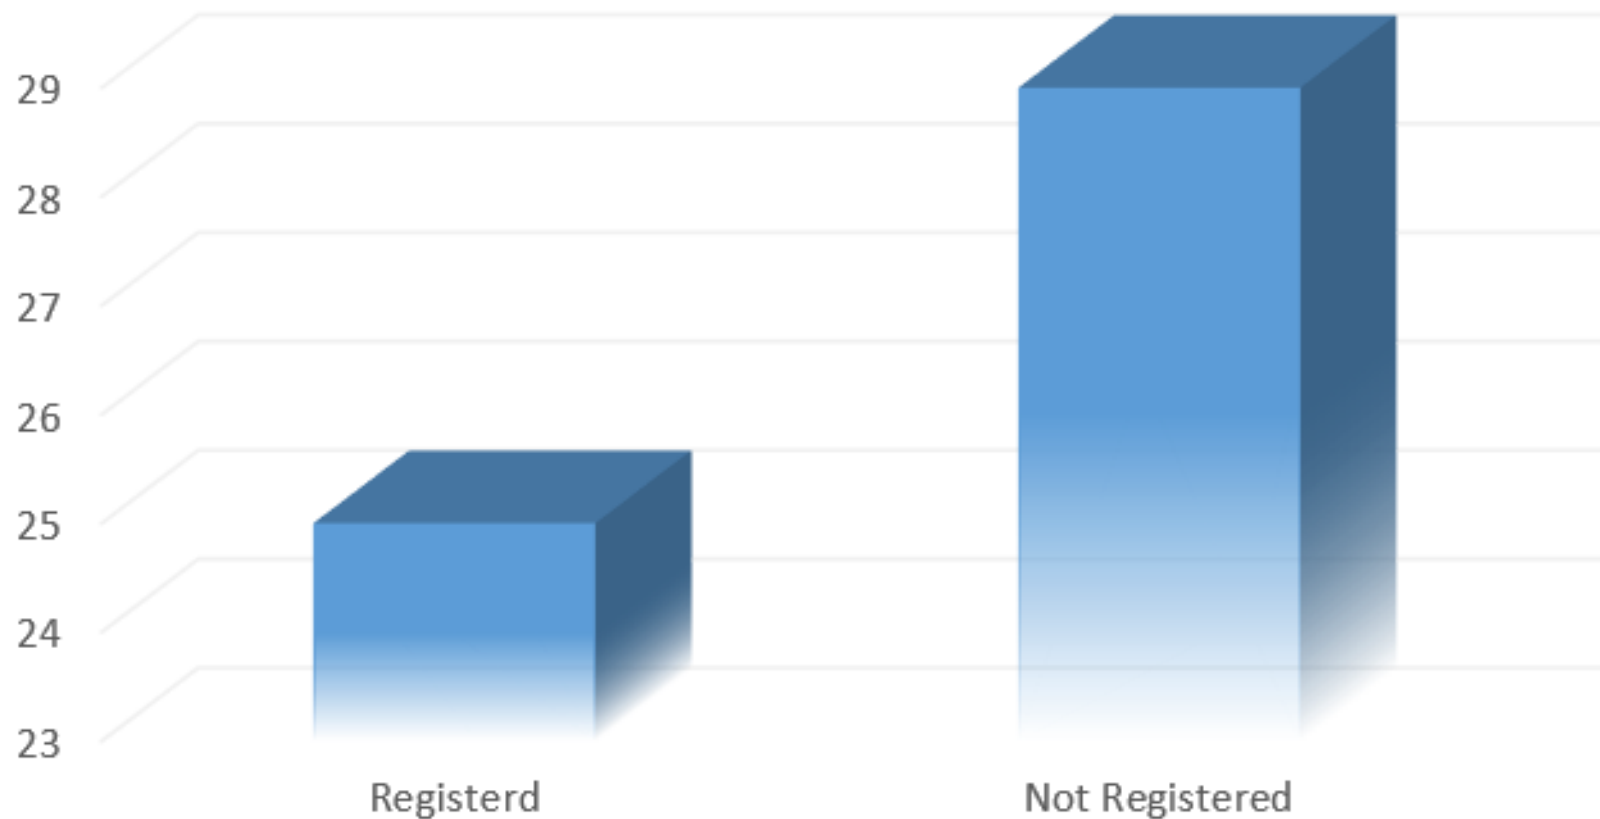

- Support to CDM projects in the Caribbean
- Stakeholder support
- Provide capacity building

Support to CDM projects in the Caribbean

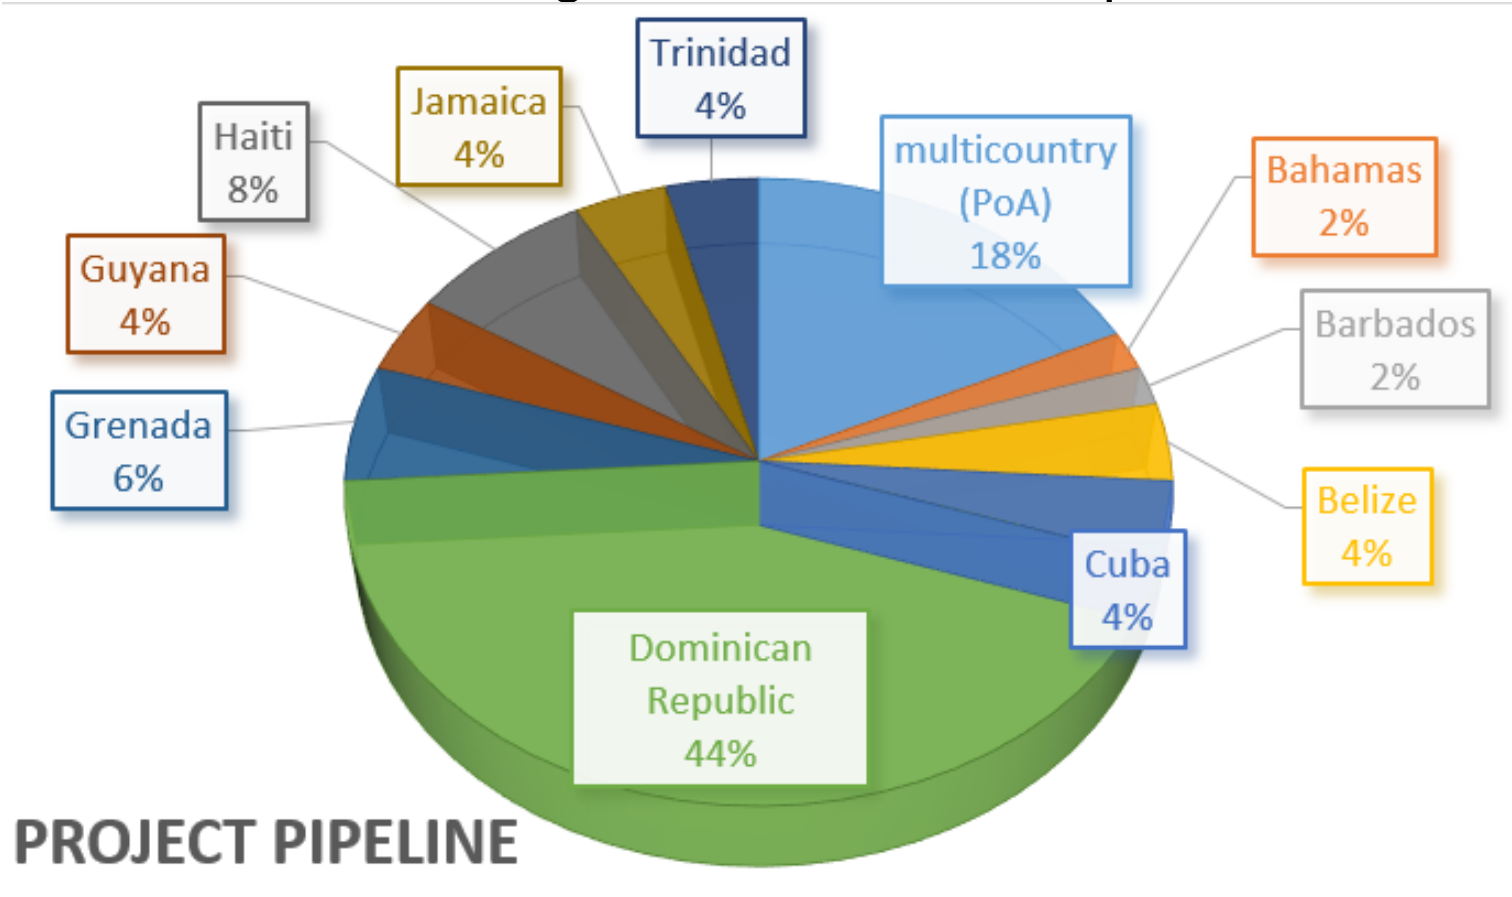

- Project pipe line has just over 50 CDM project activities
- No new projects activity/leads for 2017

PROJECT PIPELINE

Support to CDM projects in the Caribbean

- Most of them coming from Dominican Republic and Jamaica

- CDM project status campaign conducted
 - The Fall in the price of CERs negatively affected projects activities
 - Projects need financing to continue with CDM cycle

Stakeholder support

Support to Standardized Baselines Project Pipeline Survey

Key results

- a) Support on submission of GEF SBL for Haiti, Antigua and Barbuda, St. Vincent & Grenadines
 - Clarification support
- b) Support for Approval of GEF SBL for Grenada
 - Grenada 0.634tCO₂/MWh
 - Carriacou 0.675 tCO₂/MWh
 - Petite Martnique 0.890tCO₂/MWh
- c) Supporting recalculation of Belize GEF SBL value

Stakeholder support

Support for the implementation of the Paris Agreement

- a) 5 Workshops (put table with dates) on Nationally Determined Contributions (NDC) implementation from 16–24 June 2016:
- in St. Vincent
 - St. Lucia
 - Grenada
 - Suriname
 - Guyana

Support to Non-State Actors

- a) Implementation of a High Level Expert Regional Dialogue on Article 6 instruments from the Paris Agreement *Caribbean Perspectives*

Outreach and Capacity Building

- a) Training of interns: 4 interns (2 from SGU and 2 internationally recruited) are joining the centre this summer
 - Assisted in Standardized Baseline (SBL) data analysis
 - Newsletters on Financing opportunities (Sustainable Development Tool promotion)

- b) Institutional capacity to DNAs: the Center has already facilitated the issuance of 3 Letters of Approval (LoAs), one in Haiti, one in Jamaica and another in Barbados by providing technical capacity to the DNAs. Additional support is expected to be provided throughout the year.

WINDREF vision for RCC St. George's

- Must move beyond CDM and other markets to support for all mitigation related activities. Perhaps also adaptation in the future.

THANK YOU

Any questions?
