

REVIEW OF THE PROJECT ACTIVITY

“Project for the catalytic reduction of N₂O emissions with a secondary catalyst inside the ammonia reactor of the nitric acid plant at Dongbu Hannong Chemicals Ltd., Ulsan, Korea (“Dongbu”). ” (1443)

At its forty-sixth meeting the Board could not approve the request for issuance of CERs for the project activity “Project for the catalytic reduction of N₂O emissions with a secondary catalyst inside the ammonia reactor of the nitric acid plant at Dongbu Hannong Chemicals Ltd., Ulsan, Korea (“Dongbu”).”(1443) for the monitoring period 01 April 2008 - 15 May 2008 submitted by the DOE (DNV), because a request for deviation has not been submitted by the DOE prior to submitting the request for issuance to address how the monitoring equipment used to monitor the baseline campaign has obtained the planned QAL 1 certification as indicated in the monitoring plan in the registered PDD and monitoring report by extended QAL2 testing.
