

REVIEW OF THE REQUEST FOR ISSUANCE

"AWMS GHG Mitigation Project, MX05-B-09, Nuevo León, México" (0163)

The Board agreed to reject the request for issuance of 2,345 CERs for the CDM project activity, "AWMS GHG Mitigation Project, MX05-B-09, Nuevo León, México" (0163) for the monitoring period 01 Oct 2005 - 28 Feb 2006, considering that it was not evident how the DOE had complied with the requirements of paragraph 62(d) of the CDM modalities and procedures and also that the DOE has accepted a modification of the approved monitoring methodology with respect to the estimation of leakage due to additional electricity consumption, without requesting a deviation.
