### RE: LETTER OF APPROVAL – TATS SOLAR LANTERN PROGRAMME OF ACTIVITIES

We wish to refer to your request for host country approval for the above referred Program of Activities (PoA). We note that the PoA has the goal of scaling up the deployment of low-cost uptake of high quality solar lanterns to targeted end-users (households and/or businesses) across Kenya. The PoA will provide technology and financing solutions to end-users and encourage the uptake of solar lanterns to replace current fossil fuel based lamps.

The use of these PV LED systems in households without access to electricity will reduce greenhouse gas emissions through the avoided kerosene combustion for lighting purposes.

As the Designated National Authority of Kenya for the Clean Development Mechanism, we wish to confirm that we have reviewed the above-referred PoA-Design Document. We further wish to confirm that:-

- The Program is approved as a CDM PoA for the purposes of Article 12 of the Kyoto Protocol.
- The Government of Kenya is Party to the Kyoto Protocol and that participation in CDM project activities is voluntary.
- The PoA will contribute to Kenya's sustainable development.
- Total Access to Solar (TATS) is the Coordination or Managing Entity (CME) for this PoA while TOTAL Kenya Limited is a project implementer of the TATS Solar Lantern Programme of Activities Kenya – CPA-01.

We wish to note and confirm that this PoA, amongst other issues, will contribute to the overall realization of Kenya Vision 2030 and sustainable development. It is however to be noted that all CPAs under this PoA in Kenya must comply with all the required Kenya national regulatory and/or planning requirements throughout all the phases of implementation in Kenya.

  
**PROF. GEOFFREY WAHUNGU**  
**DIRECTOR GENERAL**
