Re: Request for Letter of Approval (LoA) for 'Energy efficiency of Nigeria's residential lighting stock by distributing up to 40 million compact fluorescent lamps (CFLs) to residential households connected to the national grid'.

1. We wish to acknowledge your request for Letter of Approval in respect of **'Energy efficiency of Nigeria's residential lighting stock by distributing up to 40 million compact fluorescent lamps (CFLs) to residential households connected to the national grid'**. We have gone through the Project Design Document and found it to be in consonance with the contents of the Project Idea Note (PIN).
2. We have also noted and convinced that your project will result in greenhouse gas emission reduction and more importantly will result in sustainable economic development in Nigeria. In addition, the Project has been assessed capable of reducing emissions of greenhouse gases.
3. Against the background of the fact that Nigeria ratified the Kyoto protocol on 10 December 2004 and is in compliance with her obligations under the United Nations Framework Convention on Climate Change (UNFCCC) and the Kyoto Protocol, the Special Climate Change Unit (SCCU), being the Designated National Authority for Clean Development Mechanism (CDM) Activities in Nigeria, hereby confirms as follows:-
 - i. The above named project will enhance the nation in achieving sustainable development.

- ii. The Special Climate Change Unit (SCCU) considers the grant of a Letter of Approval (LoA) to '**ICIMI Ltd**' as the managing entity in compliance with Article 12 of the Kyoto protocol, based on the review and evaluation of the Project Design Document.
 - iii. That Nigeria's participation in the CDM & CDM-project is voluntary.
 - iv. The SCCU will cooperate with the CDM Executive Board and all project participants to facilitate the CDM project cycle to the extent possible.
4. Accordingly and in line with the Authority's directive, your Company '**ICIMI Ltd**' is hereby issued this Letter of Approval (LoA) in order to advance registration process of the above-named CDM project. Please be informed that the DNA reserves the right to monitor your satisfactory fulfillment of the sustainable development objective of the project during implementation.
5. Congratulations and looking forward to successful registration of the Project by the CDM Executive Board.

Dr. Samuel A. Adejuwon
Head, Special Climate Change Unit
Designated National Authority
For: Federal Ministry of Environment, Nigeria
