RE: Letter of Approval (LoA) for Southern African Renewable Energy (SARE) Programme

Regarding the **Southern African Renewable Energy (SARE) Programme**, project developed by **K2011/117952/07 (Pty) Ltd trading as African Sustainability Initiative**; the Designated National Authority (DNA) of Lesotho under the Department of Lesotho Meteorological Services (LMS) is authorized to issue a Letter of Approval (LoA) for this Programme of Activity (PoA) in Lesotho and would like to confirm that:

1. The Government of Lesotho ratified the Kyoto Protocol on 6th September 2000.
2. This is approval of voluntary participation in the proposed PoA project activity.
3. The above-mentioned project activity contributes to sustainable development in Lesotho. However, individual CDM Programme of Activities (CPAs) under this POA will be assessed for specific contribution to the country's sustainable development.
4. African Sustainability Initiative, as the project proponent, is the Coordinating Managing Entity participating in the Programme of Activity.

In providing this approval, the Government of Lesotho further commits to render such assistance, as may be necessary in the future validation, verification, issuance and transfer of the CERs.

This approval does not imply a commitment on the part of the Government of Lesotho to support the CPAs under this PoA. And as such, by accepting this Letter of Approval, African Sustainability Initiative indemnifies the DNA against any loss that African Sustainability Initiative may suffer as a result of project implementation.

Signed at MASERU, LESOTHO on the 24/09/2012
