Re: Request for Letter of Approval (LoA) for 'PoA for the Reduction of Emission from Non-Renewable Fuel from Cooking at the Household Level'.

We wish to acknowledge your request for Letter of Approval in respect of '**PoA for the Reduction of Emission from Non-Renewable Fuel from Cooking at the Household Level**'. We have gone through the Project Design Document and found it to be in consonance with the contents of the Project Idea Note (PIN).

2. We have also noted and convinced that the Project is capable of reducing emissions of greenhouse gases and more importantly, its implementation will result in sustainable economic development in Nigeria.

3. Against the background of the fact that Nigeria ratified the Kyoto Protocol on 10 December 2004 and in compliance with its obligations under the United Nations Framework Convention on Climate Change (UNFCCC) and the Kyoto Protocol, the Department of Climate Change, being the Designated National Authority for Clean Development Mechanism (CDM) implementation in Nigeria, hereby confirms as follows:-

- i. The above named project will assist Nigeria in achieving its sustainable development.
- ii. The Department of Climate Change (DCC) considers the grant of a Letter of Approval (LoA) to '**Green Development AS**' as the managing entity in

compliance with Article 12 of the Kyoto protocol, based on the review and evaluation of the Project Design Document.

iii. That Nigeria's participation in the CDM & CDM-project is voluntary.

iv. The Department of Climate Change will cooperate with the CDM Executive Board and all Project Participants to facilitate the CDM project cycle to the extent possible.

4. Accordingly and in line with the Authority's directive, your Company '**Green Development AS**' is hereby issued this Letter of Approval (LoA) in order to advance registration process of the CDM project '**PoA for the Reduction of Emission from Non-Renewable Fuel from Cooking at the Household Level**'. Please be informed that the DNA will continue to monitor your satisfactory fulfillment of the sustainable development objective of the project or otherwise during implementation phase.

5. Congratulations and looking forward to a successful registration of the Project by the CDM Executive Board.

Dr. Samuel A. Adejuwon
Ag. Director, Department of Climate Change
Designated National Authority
For: Federal Ministry of Environment, Nigeria
