

CDM proposed standardized baseline initial assessment form (Version 01.0)

*(To be **used** by the **UNFCCC secretariat** in initially assessing the quality of a proposed standardized baseline.)*

Title of proposed standardized baseline:	"Grid Emission Factor of Sao Tome and Principe"	
Requirement	Y/N	Explanation
The form F-CDM-PSB has been duly completed.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
The PSB was derived from a methodological approach contained in an approved methodology or tool or from the "Guidelines for the establishment of sector specific standardized baselines".	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	The PSB is derived from the latest approved version (4.0) of the "tool to calculate the emission factor for an electricity system"
The DNA submitted all the information required for consideration of the proposed standardized baseline (e.g. studies referred to in the proposed standardized baseline documents). (a) It is transparently documented how the standardized baseline was derived, including a transparent and clear documentation of all underlying data, data sources, assumptions, calculation steps and outcomes. (b) It is clearly explained how the standardized baseline will be used with the relevant approved methodology(ies) or an approved tool. (c) The validity of the standardized baseline is clearly specified and in accordance with applicable requirements.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> (Please check) <input checked="" type="checkbox"/> (Please check) <input checked="" type="checkbox"/> (Please check)	It is transparently documented how the "tool to calculate the emission factor for an electricity system" is applied, what data is used, etc. It is explained that the standardized baseline will be used by the grid connected CDM project activities located in the Democratic Republic of Sao Tome and Principe. The validity of the standardized baseline is three years as per requirements of the CDM EB.
In the case that an assessment report was submitted: the assessment report presents how the data was collected, processed and compiled to establish the proposed standardized baseline and includes an opinion on whether the data was collected and processed in accordance with relevant procedures or guidelines adopted by the Board.	<input type="checkbox"/> Yes <input type="checkbox"/> No	This is not applicable, as the Democratic Republic of Sao Tome and Principe had no registered CDM projects by 31 December of 2010.
Where the proposed standardized baseline is developed for a group of Parties, approval letters of all the DNAs (excluding the letter of the DNA submitting this proposed standardized baseline) have been submitted.	<input type="checkbox"/> Yes <input type="checkbox"/> No	This is not applicable, as the proposed standardized baseline is developed for a single Party.
Date the initial assessment is sent to the focal point(s):	10 December 2013
