Re: *Host Country Approval to "Small-scale programme of activities (PoA) for the reduction of emission from non-renewable fuel from cooking at household level"*

Reference is made to the above captioned subject and to your letter requesting host country approval of the *"PoA for the reduction of emission from non-renewable fuel from cooking at household level."*

The Designated National Authority of the Federal Democratic Republic of Ethiopia has thoroughly assessed the PoA in line with the national Sustainable Development Criteria and would like to confirm that:

- The Federal Democratic Republic of Ethiopia has ratified the Kyoto Protocol in February 2005;
- The PoA is in line with the national development objectives of Ethiopia and thus its implementation will contribute to the sustainable development of the country; and
- The proposed PoA is approved for a voluntary participation.

Sincerely,

Dessalegn Mesfin
Deputy Director General
