Re: Request for Letter of Approval (LoA) for Programme of Activities - Distribution of Improved Cook Stoves in Sub-Saharan Africa'

We wish to acknowledge your request for Letter of Approval in respect of '**Distribution of Improved Cook Stoves in Sub-Saharan Africa**'. We have gone through the Programme of Activities Design Document and found it to be in consonance with the contents of the Project Idea Note (PIN).

2. We have also noted and convinced that the Programme is capable of reducing emissions of carbon dioxide targeted and more importantly, its implementation will result in sustainable economic development in Nigeria.

3. Against the background of the fact that Nigeria ratified the Kyoto Protocol on 10 December 2004 and in compliance with its obligations under the United Nations Framework Convention on Climate Change (UNFCCC) and the Kyoto Protocol, the Department of Climate Change, being the Designated National Authority for Clean Development Mechanism (CDM) implementation in Nigeria, hereby confirms as follows:-

- i. The above named Programme will assist Nigeria in achieving its sustainable development.
- ii. The Department of Climate Change (DCC) considers the grant of a Letter of Approval (LoA) to '**C-Quest Capital Malaysia Global Stoves Limited**' as the managing entity in compliance with Article 12 of the Kyoto protocol, based on the review and evaluation of the Programme of Activities Design Document;

- iii. *The Department of Climate Change acknowledges from the Programme of Activities Design Document submitted that **C-Quest Capital Malaysia Global Stoves Limited** is the sponsor and Coordinating/Managing entity of the Programme of Activities;*
- iv. *That Nigeria's participation in the CDM & CDM-programme implementation is voluntary.*
- v. *The Department of Climate Change will cooperate with the CDM Executive Board and all Project Participants to facilitate the CDM project cycle to the extent possible.*

4. *Accordingly and in line with the Authority's directive, your Company '**C-Quest Capital Malaysia Global Stoves Limited**' is hereby issued this Letter of Approval (LoA) in order to advance registration process of the Programme of Activities '**Distribution of Improved Cook Stoves in Sub-Saharan Africa**'. Please be informed that the DNA will continue to monitor your satisfactory fulfillment of the sustainable development objective of the project or otherwise during implementation phase.*

5. *Congratulations and looking forward to a successful registration of the Programme by the CDM Executive Board.*

Dr. Samuel A. Adejuwon
Ag. Director, Department of Climate Change
Designated National Authority
For: Federal Ministry of Environment, Nigeria
