Subject: SHPs

Stefan,

As talked, sending basic information about the PCHs:

SHP Faxinal dos Guedes
Power Generation: 4 MW
Firm Generation: 2.48 MW
Location: Santa Catarina - Emission Factor: 0.5258 tCO₂/MWh
Emissions reduced: approx. 11,000 tCO₂/year
Start of operation: Jun/2006

SPH Cristalino
Power Generation: 4 MW
Generation Firm: 2.8 MW
Location: Parana - Emission Factor: 0.5258 tCO₂/MWh
Emissions reduced: approx. 12,000 tCO₂/year
Start operation: Aug/2005

Fujihara wants to analyze some kind of compensation for these projects. I have the homework to study what can be interesting; I think you could think about this also to go to the meeting on Thursday with more realistic proposals. OK!

Ernesto Cavasin
