

Draft standardized baseline development agreement form (Version 01.1)

To be completed by the secretariat and by a designated national authority (DNA) after the CDM Executive Board decides to develop a draft standardized baseline in accordance with the "Procedure: Development, revision, clarification and update of standardized baselines" (CDM-EB63-A28-PROC). If the draft standardized baseline is developed for a group of Parties, this form is to be completed by the DNA of each Party.

INFORMATION TO BE COMPLETED BY THE SECRETARIAT

Date (DD/MM/YYYY) and number of the Board meeting that decided the development:	EB 93 (20/02/2017 – 23/02/2017)
Title of the draft standardized baseline:	Standardized Baseline for introducing electric vehicles in St. Vincent and the Grenadines
Name(s) of the Party or Parties to which the draft standardized baseline applies:	St. Vincent and the Grenadines
Elements to be standardized by the draft standardized baseline: <i>(Select one or more than one element(s) to be standardized)</i>	<input type="checkbox"/> Additionality demonstration <input type="checkbox"/> Baseline identification <input checked="" type="checkbox"/> Baseline emission/ removal estimation <input type="checkbox"/> Land eligibility demonstration

Proposed approach for the development of the draft standardized baseline:

- ☐ The "Guidelines for the establishment of sector specific standardized baselines"
☒ A methodological approach contained in an approved baseline and monitoring methodology (Please specify below the exact reference (number, title and version) of the approved methodology _____)
 "AMS-III.C : Emission reductions by electric and hybrid vehicles" - Version 15.0
☐ A methodological approach contained in an approved methodological tool (Please specify below the exact reference (title and version) of the approved tool _____)
☐ The "Guideline: Establishment of standardized baselines for afforestation and reforestation project activities under the CDM"

Proposed data source, applicability and impacts of the draft standardized baseline:

Applicability

This standardized baseline can be used by project activities in SVG that involve the replacement of the existing fossil-fuel SUVs owned by the government by new electric vehicles, in conjunction with the requirements from the latest version of the approved methodology "AMS-III.C : Emission reductions by electric and hybrid vehicles - version 15.0"

Impact

The standardized baseline will provide default *SFC_i* (Specific fuel consumption of baseline vehicle category *i*, in g/km) of fossil fuel vehicles owned by the government that will be replaced by the new electric vehicles. The following provisions apply:

- the vehicle category corresponds to SUVs;
- the parameter will be determined following "Option (1): Sample Measurements" from the methodology;

Data source

The data sources will be the records from the government such as internal control documents and official vehicle registration database. The data shall indicate, for each SUV included in the sample, the quantity and different types of fuels consumed, the distance travelled, the engine size and the year of manufacturing.

Any other issues to be stated, if necessary:

The standardized baseline will be developed following the modalities of top-down approach as per the mandates of the CDM Executive Board to the UNFCCC Secretariat and in collaboration with the DNA of St. Vincent and the Grenadines

The DNA of St. Vincent and the Grenadines will extend its support and cooperation to the UNFCCC Secretariat in developing this standardized baseline. In particular, the responsibility and costs for on-site collection, compilation and quality assessment of the data required to develop standardized baseline will be assumed by the DNA of St. Vincent and the Grenadines.

INFORMATION TO BE COMPLETED BY THE DNA

Consenting DNA:	Ministry of Finance, Economic Planning, Sustainable Development and Information Technology
Name of authorized officer signing for the DNA:	Mrs Laura Anthony Browne
Date (DD/MM/YYYY) and signature for the DNA:	
Contact Information of the focal point(s) of the DNA: (Names, email-addresses and phone contacts for procedural and technical communication on the draft standardized baseline)	Laura Anthony Browne Ministry of Finance, Economic Planning, Sustainable Development and Information Technology 1 st Floor Administrative Building, PO Box 608, Kingstown, St Vincent and the Grenadines cenplan@svgcpd.com ; nyakkh@gmail.com
