

**CDM: Revision Form for Approved Methodologies  
(version 01)**  
(To be used for responding to requests for revision on approved methodologies)

Date of Meth Panel meeting:	31 January – 03 February 2006
Title/Subject (give a small title or specify the subject of your submission, maximum 200 characters):	“Deletion of footnote 6 in ACM0006”
Indicative methodology to which your submission relates	ACM0006 - Consolidated methodology for grid-connected electricity generation from biomass residues
Name of the authors of the query:	DNV
<b>Summary of the query:</b> Please use the space below to summarize the request for revision on the related approved methodologies.	
>> Footnote 6 in ACM0006 limits three out of fifteen scenarios to cogeneration plants with backpressure turbines without any intermediate heat extraction. The request suggests to delete this footnote in order to make the methodology fully applicable to all types of cogeneration plants.	
<b>Recommendation by the Meth Panel:</b> Please use the space below to provide amendments /changes (in your expert view, if necessary).	
>> It is recommended to accept the request with the insertion of additional language ensuring that efficiencies are measured in a manner that reasonably represents the different potential operational modes of cogeneration plants with heat extractions.	
<b>Answer to authors of the request for revision by the Meth Panel :</b> Please use the space below to provide an answer to the authors of the above query	
>> The reason for the former limitation to cogeneration plants is that in the relevant scenarios, emission reductions from the displacement of heat are calculated based on differences in efficiencies. However, efficiencies may vary in case of turbines with heat extractions, depending on the operational mode. The problem has been fixed in an easy manner by requiring that efficiencies are determined at representative operational modes.	

Signature of the Meth Panel Chair .....

Date: 13/ 02/06

(Jean-Jacques Becker)

Signature of the Meth Panel Vice-Chair .....

Date: 13/ 02/06

(José Miguez)

**Information to be completed by the secretariat**

F-CDM-AM	F-CDM-AM0006
Date when the form was received at UNFCCC secretariat	13 February 2006
Date of transmission to the EB	13 February 2006
Date of posting in the UNFCCC CDM web site	13 February 2006
