 <p align="center">CDM: Recommendation Form for Small Scale Methodologies (version 01) (To be used for presenting questions/proposals/amendments to the simplified methodologies for small-scale CDM project activity categories)</p>	
Date of SSC WG meeting:	31 August – 1 September 2006
Title/Subject (give a small title or specify the subject of your submission, maximum 200 characters):	Request for clarification: “same type of technology/measure” as per the “debundling” definition provided in the EB7 Meeting Report, Annex 7
Indicative methodology to which your submission relates (refer the items of Appendix B of the Simplified Modalities and Procedures), if applicable.	II.D. Energy Efficiency and Fuel Switching Measures for Industrial Facilities, Version 07, 28 November 2005
Name of the authors of the query:	TÜV SÜD Industrie Service GmbH
<p>Summary of the query:</p> <p>Please use the space below to summarize the query related to SSC methodologies/categories SSC Modalities and Procedures provide recommendation/analysis of the SSC WG.</p> <p>Two project activities from fertiliser industry in India are being implemented at the same plant, using the same methodology (AMS II.D.). One project involves the recovering of waste heat from flue gases by preheating the combustion air of service boiler. In the second project, a plate type heat exchanger is installed to preheat combustion air of primary reformer. Although these two projects are in the same category (AMS II.D.), it needs to be clarified whether they are also of the same technology/measure, in which case they would need to be bundled and meet the small scale requirements for both projects together.</p> <p>A clarification is requested regarding the definition of “same type of technology/measure” as per the “debundling” definition for all small scale projects in general, and for this project in particular.</p>	
<p>Recommendation by the SSC WG:</p> <p>Please use the space below to provide amendments /change (in your expert view, if necessary).</p> <p>Please refer to Paragraph 14 of the meeting report of the SSC WG 07 (http://cdm.unfccc.int/Panels/ssc_wg)</p>	
<p>Answer to authors of query by the SSC WG:</p> <p>Please use the space below to provide an answer to the authors of the above query</p> <p>The small scale-working group (SSC-WG) of the CDM Executive Board would like to thank the proponents for this submission.</p> <p>The SSC WG agreed to recommend the definitions of ‘technology and measure’ as follows:</p> <p>(a) Two different project activities will be considered to be applying the same technology if they provide the same kind of output and use the same kind of equipment and conversion process.</p> <p>(b) Two different project activities will be considered to be using the same measure if they constitute the same course of action and result in the same kind of effect (e.g. two projects using the same management practice such as fuel switch).</p>	

Signature of SSC WG Chair

Date: 06/ 09 /06 (Gertraud Wollansky)

Signature of SSC WG Vice-Chair

Date: 06/ 09 /06 (Richard Muyungi)

Information to be completed by the secretariat

SSC-Submission number	SSC_062
Date when the form was received at UNFCCC secretariat	6 September 2006
Date of transmission to the EB	6 September 2006
Date of posting in the UNFCCC CDM web site	6 September 2006
