

 <p style="text-align: center;">CDM: Response form for Request for revision of approved methodologies (version 01.1)</p>	
<i>Date of Meth Panel meeting:</i>	25 – 29 October 2010
<i>Title and number of Request for revision</i>	Revision of ACM0018 to include CO ₂ emissions from energy consumption for mechanical treatment of the biomass residues in Project Emissions. AM_REV_0198
Summary of the query: Please use the space below to summarize the request for revision on the related approved methodologies.	
<p>The methodology “ACM0018 - Consolidated methodology for electricity generation from biomass residues in power-only plants” is applicable to project activities that generate electricity in biomass residue (co-)fired power-only plants. The project activity may include the following activities or, where applicable, combinations of these activities: greenfield power projects, power capacity expansion projects, energy efficiency improvement projects, and fuel switch projects.</p> <p>The methodology is only applicable if no significant energy quantities, except from transportation or mechanical treatment of the biomass residues, are required to prepare the biomass residues for fuel combustion, i.e. projects that process the biomass residues prior to combustion (e.g. esterification of waste oils, gasification, etc.) are not eligible under the methodology.</p> <p>The request seeks to revise the methodology in order to expand its applicability to project activities in which:</p> <ul style="list-style-type: none"> • Biomass residues undergo shredding and pelletization prior to combustion; • Shredding and pelletization can be undertaken at a different site than the project activity site or at the project activity site but based on the use of electricity from the grid (instead of electricity from the biomass-powered plant). 	
Recommendation by the Meth Panel:	
(a) Please use the space below to provide amendments /changes (in your expert view, if necessary). Please, refer to the box below.	
(b) Please use the space below for providing guidance, as per Para 93 of EB25 Report, on what type of projects need to revise the PDD as a consequence of the suggested revision, if the recommendation is to revise the methodology. Please, refer to the box below.	

Answer to authors of the request for revision by the Meth Panel :

Please use the space below to provide an answer to the authors of the above query

The Meth Panel recommends [to approve](#) the request for revision. The draft revised methodology is annexed to the forty-sixth Meth Panel meeting report.

Signed by the Chair, Mr. Lex de Jonge

Date: 29/10/2010

Signed by the Vice-Chair, Mr. Philip Gwage

Date: 29/10/2010

Information to be completed by the secretariat

F-CDM-AM	AM_REV_0198
Name of the authors of the query:	DNV
Date when the form was received at UNFCCC secretariat	29 October 2010
Date of transmission to the EB	29 October 2010
Date of posting in the UNFCCC CDM web site	29 October 2010
