

CDM: Recommendation Form for Small Scale Methodologies (version 01)

*(To be used for presenting questions/proposals/amendments to the
simplified methodologies for small-scale CDM project activity categories)*

Date of SSC WG meeting:	26 - 27 January 2006
Title/Subject (give a small title or specify the subject of your submission, maximum 200 characters):	Addition to Baseline requirement and Monitoring Requirement (additional alternate requirement)
Indicative methodology to which your submission relates (refer the items of Appendix B of the Simplified Modalities and Procedures), if applicable.	III.B. switching fossil fuels – Type III Other Project Activities - of Indicative simplified baseline and monitoring for selected small scale CDM project activities
Name of the authors of the query:	Mr.Sudhir V.Udeshi , Director

Summary of the query:

Please use the space below to summarize the query related to SSC methodologies/categories SSC Modalities and Procedures provide recommendation/analysis of the SSC WG.

The submission proposes an additional option to the baseline requirement and monitoring requirement to III.B: Switching fossil fuels of the Appendix B of the simplified modalities and procedures for small-scale CDM project activities, to cover project activities which replace fossil fuel to biomass.

Recommendation by the SSC WG :

Please use the space below to provide amendments /change (in your expert view, if necessary).

Answer to authors of query by the SSC WG :

Please use the space below to provide an answer to the authors of the above query

Reference is made to your query dated 1 November 2005. The small scale working group (SSC-WG) of the CDM Executive Board would like to thank you for the submission and proposal of an additional category and the draft indicative methodology for the purpose.

As a result of the discussion of related submissions including your query, the SSC-WG agreed on the following matters:

- In the category I.C: Thermal energy for the user, biomass-based co-generating systems that produce heat and electricity for use on-site are included . Therefore, the proposed fuel switching project activities by the submission should apply the category I.C.
