

**Approved baseline and monitoring methodology/
methodological tool clarification response form
(Version 02.0)**

INFORMATION TO BE COMPLETED BY THE SECRETARIAT OR PANEL/ WG

Date and number of Panel/ WG meeting:	Meth Panel 62
Title/Subject of the request for clarification:	Are we able to use a large scale methodology for a small scale project?
Reference number of the request for clarification:	AM_CLA_0251
Exact reference (number, title and version) of the methodology or methodological tool to which the request for clarification applies:	AM0056 v1.0
Fast track or Regular track:	<input checked="" type="checkbox"/> Fast track <input type="checkbox"/> Regular track

Summary of the request for clarification

Project proponents would like to clarify whether they can use the large scale methodology AM0056 to develop a project that falls into small scale category (energy savings below 60GWh/y).

Clarification by the secretariat or Panel/ WG

The secretariat would like to clarify that project proponents may choose a CDM large scale methodology for their project, regardless of whether the expected emission reductions fall below or above the small-scale limit.

In addition, the project proponents may note that a project activity applying a large scale methodology cannot take advantage of the procedural and methodological simplifications of small scale projects, regardless of whether the expected or actual emission reductions fall below or above the small-scale limit.
