 <p style="text-align: center;">CDM: Response form for Request for revision of approved methodologies (version 01.1)</p>	
<i>Date of Meth Panel meeting:</i>	9 - 13 July 2007
<i>Title and number of Request for revision</i>	“Extended applicability of methodology ACM0003 to include partial substitution of fossil fuels with less carbon intensive fossil fuels in cement manufacture” / AM_REV_0054
Summary of the query: Please use the space below to summarize the request for revision on the related approved methodologies.	
The request suggests broadening the applicability of ACM0003 to project activities that switch to less carbon intensive fossil fuels.	
Recommendation by the Meth Panel: (a) Please use the space below to provide amendments /changes (in your expert view, if necessary).	
The Meth Panel recommends approving the request with some changes, taking also into account other requests for revision to ACM0003.	
(b) Please use the space below for providing guidance, as per Para 93 of EB25 Report, on what type of projects need to revise the PDD as a consequence of the suggested revision, if the recommendation is to revise the methodology.	
The revision to ACM0003 broadens the applicability of ACM0003. However, it will affect projects due to changes that apply to all project types, such as a clearer procedure to identify the most likely baseline scenario.
