

 <b>CDM: Response form for Request for revision of approved methodologies (version 01.1)</b>	
<i>Date of Meth Panel meeting:</i>	4 - 8 September 2006
<i>Title and number of Request for revision</i>	AM_REV_0021: “Baseline Methodology for Grid Connected Electricity Generation Plants using Natural Gas”
<b>Summary of the query:</b> Please use the space below to summarize the request for revision on the related approved methodologies.	
The request for revisions is for adding the name Torrent Power Generation Limited (TPGL). to the source section in the approved methodology AM0029. AM0029 is based on NM0080 and NM0153. NM0080: “Natural gas based grid connected 1050 MW combined cycle power generation project for Torrent Power Generation Limited at Akhakhol Gujarat” was submitted by Torrent Power Generation Limited (TPGL). They claim that the main workload of drafting this new methodology was done by them. They only were assisted by PricewaterhouseCoopers (P). Despite that only PricewaterhouseCoopers was mentioned in both sections “Sources” of AM0029. Taking into account that Torrent Power Generation Limited (TPGL) has spent a lot of effort (and money) in the drafting of the methodology and as they consider their contribution as very prestigious their name should also be presented in the section “Sources”.	
<b>Recommendation by the Meth Panel:</b> (a) Please use the space below to provide amendments /changes (in your expert view, if necessary). Not Applicable	
(b) Please use the space below for providing guidance, as per Para 93 of EB25 Report, on what type of projects need to revise the PDD as a consequence of the suggested revision, if the recommendation is to revise the methodology. Not Applicable	
<b>Answer to authors of the request for revision by the Meth Panel :</b> Please use the space below to provide an answer to the authors of the above query Meth Panel clarified that the request for revision procedure is provided for (i) broadening the applicability of the methodology; (ii) improving the procedures presented in the methodology; or (iii) addressing any error in the methodology. Further, it is clarified that information provided in the source section of an approved methodology is based on information in the section titled “ <b>Date of completion of the application of the baseline study and monitoring methodology and the name of the responsible person(s)/entity(ies)</b> ” of draft CDM-PDD submitted by project participants along with the proposed new methodology. Meth Panel, therefore, requests the Board to clarify the basis for information to be included in the source section of approved methodology, and provide any further guidance, if needed.
