

CDM: Recommendation Form for Small Scale Methodologies (version 01)
(To be used for presenting questions/proposals/amendments to the simplified methodologies for small-scale CDM project activity categories)

Date of SSC WG meeting:	09–12 May 2011, SSC WG 31
Title/Subject (give a small title or specify the subject of your submission, maximum 200 characters):	Request for approval of combination of AMS-I.C and AMS-I.F for PoA
Indicative methodology to which your submission relates (refer the items of Appendix B of the Simplified Modalities and Procedures), if applicable.	AMS-I.C “Thermal energy production with or without electricity” AMS-I.F “Renewable electricity generation for captive use and mini-grid”
Name of the authors of the query:	Yeonsik Shin Institution: Korean Standards Association ysshin1213@ksa.or.kr , marenight@ecoeye.com , gpark@ecoeye.com
Summary of the query:	
Please use the space below to summarize the query related to SSC methodologies/categories SSC Modalities and Procedures provide recommendation/analysis of the SSC WG.	
<p>Original text from DOE</p> <p>Korean Standards Association submitted the request for approval of the application of multiple methodologies in PoA, AMS I.C and AMS I.F. The project is “<i>The programme to introduce renewable energy system into Seoul</i>” which includes Solar water heating system, Geothermal heating/cooling system, and Photovoltaic system</p>	
Recommendation by the SSC WG:	
Please use the space below to provide amendments/change (in your expert view, if necessary).	
<p>Please refer to paragraph 25 and 28 of the meeting report of the SSC WG 31 (http://cdm.unfccc.int/Panels/ssc_wg).</p>	
Answer to authors of query by the SSC WG:	
Please use the space below to provide answer to the authors of the above query.	
<p>The small-scale working group of the CDM Executive Board would like to thank the author for the submission.</p> <p>The SSC WG agreed to clarify that the proposed combination i.e. AMS-I.C. and AMS-I.F. is not permissible under the current PoA guidelines (as per paragraph 52 of CDM EB58 meeting report) since the combination has not been applied yet in any of the registered project. However, the SSC WG agreed to recommend the proposed combination for approval as there are no interactive or cross effects between the measures applied in the respective component methodologies.</p> <p>For other recommendations on the use of methodologies for PoA, please refer to paragraph 28 of the meeting report of the SSC WG 31.</p>	

Signed by the Chair, Ms. Fatou Gaye

Date: 12/05/2011
