Among others, verifications shall not lead to systematic over-estimation of the verified amounts.</p> <p>Projects that have opted of a prompt start (after 2000), initial verification is foreseen to occur immediately after the completion of validation and registration. This is likely to enter the year 2008, first year of the commitment period.</p> <p>Considering the requested 5 year period of verification it remains to be clarified if a second verification and issuance of credits might occur during one single commitment period (considering possibly also that the first monitoring period ends before the end of 2007)</p>
