

**CDM: Recommendation Form for Small Scale Methodologies (version 01)**  
*(To be used for presenting questions/proposals/amendments to the simplified methodologies for small-scale CDM project activity categories)*

<i>Date of SSC WG meeting:</i>	30 January–02 February 2012, SSC WG 35
<i>Title/Subject (give a small title or specify the subject of your submission, maximum 200 characters):</i>	Revision of AMS-II.L to cover street lighting in Industrial Zones
<i>Indicative methodology to which your submission relates (refer the items of Appendix B of the Simplified Modalities and Procedures), if applicable.</i>	AMS-II.L “Demand-side activities for efficient outdoor and street lighting technologies”
<i>Name of the authors of the query:</i>	Atul Sanghal Institution: Emergent Ventures India Pvt. Ltd. <a href="mailto:atul@emergent-ventures.com">atul@emergent-ventures.com</a> , <a href="mailto:atulsanghal@gmail.com">atulsanghal@gmail.com</a>

**Summary of the query:**

Please use the space below to summarize the query related to SSC methodologies/categories SSC Modalities and Procedures provide recommendation/analysis of the SSC WG.

Original text from Stakeholder:

The methodology in its current version is applicable to Street Lighting projects in public and/ or owned by utilities. By Street lighting we generally mean lighting on roads. It is not however clear whether the roads within an industrial zone are also covered in this meth. Street lighting within industrial zones make a significant part of energy consumption in the sector. This may also be covered in the methodology.

Roads part of an industrial zone could be included as there is no difference in technology and purpose of application.

**Recommendation by the SSC WG:**

Please use the space below to provide amendments/change (in your expert view, if necessary).

Please refer to paragraph 21 of the meeting report of the SSC WG 35  
[http://cdm.unfccc.int/Panels/ssc\\_wg](http://cdm.unfccc.int/Panels/ssc_wg).

**Answer to authors of query by the SSC WG:**

Please use the space below to provide answer to the authors of the above query.

The small-scale working group of the CDM Executive Board would like to thank the author for the submission.

The SSC WG agreed to clarify that AMS II.L is also applicable to privately-owned street lighting systems (which would include industrial zones whether the lighting is owned by a government, utility or private entities or individuals, or some combination). The SSC WG agreed to include this clarification in a future recommendation of the revision of the methodology.

Signed by the Chair, Ms. Fatou Gaye
