

**Approved baseline and monitoring methodology /  
methodological tool revision request form  
(Version 02.0)**

*To be used when requesting revisions of approved baseline and monitoring methodologies or methodological tools in accordance with "Procedure: Development, revision and clarification of baseline and monitoring methodologies and methodological tools" (CDM-EB70-A36-PROC).*

**INFORMATION TO BE COMPLETED BY PROPONENTS**

<b>Name of the proponent:</b> Dr. Jelte Harnmeijer	
<b>Affiliation:</b> Inclusive Energy Ltd.	<input type="checkbox"/> Designated National Authority (DNA) <input type="checkbox"/> Designated Operational Entity (DOE) <input type="checkbox"/> Project Participant (PP) <input type="checkbox"/> Coordinating / Managing Entity (CME) <input checked="" type="checkbox"/> Other Stakeholder
<b>Title/Subject:</b> (give a short title or specify the subject of your submission, maximum 200 characters)	Corrections to AMS-III.R v04.0, including the use of simplified fractional approach to establish emission boundary
<b>Exact reference (number, title and version) of the methodology or methodological tool to which the request for revision applies:</b>	AMS-III.R v04.0 'Methane recovery in agricultural activities at household/small farm level'
<b>Attachments:</b>	<input checked="" type="checkbox"/> Proposed revised approved methodology or methodological tool, highlighting the proposed changes to the approved methodology or methodological tool <input type="checkbox"/> Draft PDD or PoA-DD (Optional) <input type="checkbox"/> Additional supporting information (Optional: please specify.....)
<b>Name of authorized officer signing for the proponent:</b>	Dr. Jelte Harnmeijer
<b>Contact Information:</b> (E-mail addresses and phone contacts for possible dialogue on the submission)	<a href="mailto:jelte@inclusive.energy">jelte@inclusive.energy</a> eric.buysman@gmail.com
<b>Date (DD/MM/YYYY) and signature for the proponent:</b>	14/02/2022 

**Please provide below reasons for requesting revisions to the methodology or methodological tool. If the request for revision is related to a project activity or programme of activities under development or implementation, please describe the context in which they arose.**

AMS III.R v04.0 makes reference to the absolute amount of animal waste produced under the baseline scenario. In line with AMS-III.D (and previous AMS-III.R), we point out in our request that only the fraction of animal waste produced that decays anaerobically in the absence of project activity is material. We propose corresponding equations that use this simplified, streamlines approach. Some other semantic clarifications are also proposed.
