Subject: - Production of cements

Referring your letter dated 31/10/2013 ref.No.EBF/ECAA-001/2013 regarding the production process of cement,

We hereby issue the information regarding the requirements of the product according to Ethiopian standard CES 28 which its applications is compulsory.

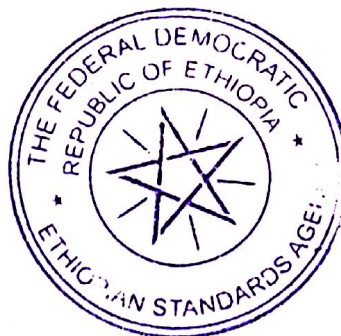

To fulfill the compulsory Ethiopian standards mechanical, physical, chemical and durability requirements the cement should be evaluated on the basis of continual sampling using spot samples from the manufacturing area.

Due to the mentioned above requirements, the production of cement outside the factory is not permitted in Ethiopia.

Best regards
