Climate Corporation Emissions Trading GmbH has confirmed that they are a project participant in a proposed Clean Development Mechanism (CDM) project entitled "Fuel Switching from Mazout to Natural Gas in Misr Edfu Pulp, Writing & Printing Paper Co. (MEPPCO)" and has requested written approval of the UK's voluntary participation in the CDM from the UK's Designated National Authority in order to submit this project to the CDM Executive Board for registration.

Climate Corporation Emissions Trading GmbH has provided us with the attached record of the host Party's confirmation that the project activity assists it in achieving sustainable development and has confirmed that it has submitted all required documents and information to the Designated Operational Entity.

The Environment Agency acting as the UK's DNA confirms that:

2. the UK participates voluntarily in the CDM;
3. to the extent that what is mentioned in paragraphs 1 and 2 may constitute authorisation of Climate Corporation Emissions Trading GmbH's participation in the above named CDM project activity, and to the extent that such authorisation is required, this letter may be taken to constitute that authorisation.

In granting authorisation, the UK's DNA has not considered those matters that fall within the competence of:

- Egypt acting as Host Party in respect of this project;
- TUV NORD CERT GmbH (TUV NORD), appointed by the project participants as Designated Operational Entity in respect of this project; or
