QUESTIONS RAISED BY CDM EXECUTIVE BOARD MEMBERS	RESPONSE SUMMARY FROM DNV	ACTION TAKEN (IF RELEVANT)
Q1 The DOE is requested to further validate the suitability of the input values used at the time of investment decision considering that the presented source (funding request letter) is dated 13 July 2011, while the project start date is 20 August 2010. Please refer to VVM v 1.2 paragraph 110 and 114 (a).	The evidence of the input values used in the financial analysis were the first official (i.e. not used for internal purpose only) data available to the validated by the DOE which could be independently cross checked as reference of earlier internally used data. This cross check of values has been added to the validation report in order to confirm the suitability of the values in light of the starting date of 20 August 2010.	PDD and Validation Report were complemented in order to clarify the issue.
