Dear Bureau Veritas Validation Team

The name of the project participant in the PDD for the OCAÑA Hydropower Project has been amended as it does contain typographical error. This change in name in the PDD, does not involve at all a legal change in the project participant and the project participant remains exactly the same. The amended name (in the PDD) is now consistent with the name stated in the Letter of Approval issued by the Ecuadorian DNA.

The sections of the PDD in which the project participant name (company name) has been amended are A.2., A.3., B.8., and Annex 1.

Kind regards

Antonio Borrero
