(...)

#### **Chapter III: Quantity of supplied energy**

(...)

Only paragraph: the maximum available energy monthly to be purchased under the present agreement will be that generated under the following formula:

(...)

$$ED_{\max} = \frac{160 * 1 * 24 * 30}{1000} = 15.12 MWh / month;$$

#### **Chapter IV – About the price of supplied electricity and the value of the contract**

Fifth clause: the unitary price of electricity supplied by the producer to COPEL is 128.10R\$/MWh, obtained from the public call CP005/2008.

First paragraph: the price will be adjusted every 12 months, from 01.05.2009, by applying the cumulative variation in the period of the IPCA (Consumer Prices Index) from the Brazilian Institute for Geography and Statistics, or other substituting it.
