Dear Sirs

**RE:Request for registration INCOMPLETE: Reduction in Clinker Usage in the  
Production of Cement Through the Increase in the Use of Additives at Lafarge Malayan  
Cement Berhad (LMCB) (1933) - Ref No. 00001933**

We refer to the email from the CDM Team of the UNFCCC Secretariat which was sent to DNV on 24th October 2008, wherein it was highlighted that the name of the project participant referred to in the PDD and Validation Report is not consistent with the project participant name stated in France's LOA.

Based on our clarification with Ms. Kamala Devi of DNV's Malaysia office, the main issue is that the PDD and Validation Report reflects "Lafarge Malayan Cement Berhad", while the France LOA reflects Lafarge Malayan Cement Bhd".

We would like to clarify that pursuant to Section 22(e) of the Companies Act of Malaysia, the word "Berhad" means 'limited' in the Malaysian language, and "Bhd" is an abbreviation which is permitted under the Companies Act of Malaysia. We attach herewith an extract from the Companies Act of Malaysia for your information.

Kindly assist to provide clarification to the CDM Executive Board on the above said.

Thank you.

Yours faithfully

**LAFARGE MALAYAN CEMENT BERHAD**
