Subject Moef submission formalities

Dear Mr.Kundu,

Please find attached the modified Project Concept Note and the Draft Letter for submission to MoEF. We need to make 20 sets (comprising first of PCN then of PDD) and each of these sets needs to be spirally binded.

The covering letter (after signed by an authorised signatory) , 2 CDs each (comprising of the PDD,PCN & a scanned copy of the Final Covering Letter) and a set (of PDD and PCN) needs to be separately packed in your envelope. I will be sending you the Final PDD in the following mail.

PCN + Draft Letter.doc.zip

In case you have any further clarifications, please revert.

Subject Further Information

Dear Mr.Kundu,

As per the todays meeting , the following are the data requirements as discussed :

1. Design Efficiency of a Coal Based Captive Power Plant of similar capacity as AML.
2. Station Heat Rate of the Coal Based Captive Power Plant.
3. Records of the quantity of Waste Gas flared prior to setting up of this Power Plant.(if available)

Also please provide us with the technical specifications of the planned expansion of the power generation capacity. We would have to incorporate the same in the PDD.

Please try to provide these datas at the earliest so that we can proceed for obtaining Host Country Approval from the Ministry.In case of any clarifications on the above , please revert back.

Subject Draft PDD

Dear Mr. Kundu,

Please find attached herewith the Draft PDD for the Adhunik Metaliks CDM project activity. There are certain highlighted portions along with our comments.

Please go through the document and provide the information/supportives as required. Also pl note that it was communicated to you earlier that we require at least 3 weeks after we receive all information. Have also requested budgetary proposals from some DOEs. Will fwd you the same, once I receive it.

Awaiting your feedback and suggestions,

Regards,

Subject Validation Quotes for Adhunik Metalliks Limited

Dear Sanjeev,

This is in regard to the Validation quotes that you had sent earlier for Adhunik Metalliks Limited. We did receive your quotes for this project which had applied ACM 0004. However the project has been revised to ACM 0012 .

Kindly send us your revised quotes for the same ASAP.

Subject pending data

Dear Mr.Kundu,

As per the mail appended below, please note that we are yet to hear at your end. Request you to expedite things at your end since we would require a minimum of 3 weeks for finalising the PDD after we receive the informations. Also pl note that we require to submit the documents immediately for HCA which is itself a long drawn process.

Let us know when we can receive all the pending data.

Regards,

Subject Checklist for Adhunik Metalliks Limited

Dear Mr. Kundu,

As per the discussions in the held on the 6th of August at your office, please find the following that needs to be confirmed at your end for the Adhunik Metalliks Limited.

1. Type of the Steam turbo generator- Whether condensing or extraction type.
2. Whether auxiliary fuel will be used during start ups
- 3.The organisational/ data monitoring, recording and reporting sructure as illustrated in Section B.7.2 needs to be confirmed.
4. Please confirm whether the start date as specified in the Section C.1 of the PDD is in line with the supportives (i.e. the date mentioned in the issuance of the 1st purchase order for the WHR project).
5. Status of No Objection Certificate for the Captive Power Plant from the Pollution Control Board.
6. Please confirm the entire Monitoring Plan as provided in Annex 4 of the PDD and metering locations. (Please note that this is critical for the project activity). Also please confirm the details provided in Section B.7.1. The mode of measurements for the parameters as provided in this Section cannot be modified from what is stated in the PDD over the entire crediting period.
- 7.Whether any supputing documents can be provided to reflect that the project has generated considerable employment opportunities.

Some additional information as mentioned below would be required as per the new methodology:

1. Was the waste gas flared or incinerated before the Captive Power Plant was implemented?
2. Was the volume of waste gas(released or flared) before the project was implemented recorded? If so please provide data on the same.
3. Amount of waste gas generated per unit of production. If the quantity of waste gas was not measured before the project implementation, then this data will be the manufacturer's design data , else, it will be based on actuals.
4. Please confirm whether meters are installed
 - (a) to measure the waste gas generated in the project activity and
 - (b) to measure the net electricity which is supplied for in-house requirements of the sponge iron facility.

Subject approval of ACM0012

Dear Mr.Kundu,

As you might be aware, "Consolidated baseline methodology for GHG emission reductions for waste gas or waste heat or waste pressure based energy system" is now approved as ACM0012. This is as per EB 32 report on the 6th of July.

We would now require a discussion as to how to take things forward inline with the new methodology which is very exhaustive.

Suggest a convenient time and date in this regard.

Regards,

Subject Methodology Approval

Dear Mr.Kundu,

We are please to inform you that methodology that we had submitted for one of our clients (as communicated to Mr.Naveen earlier) has been approved in the Executive Board Meeting -31 on the 4th of May. Please refer to Page 5 of the report . The report can be accessed at <http://cdm.unfccc.int/EB/031/eb31rep.pdf>.

This methodology will now be consolidated into the "Consolidated baseline methodology for GHG emission reductions for waste gas or waste heat or waste pressure based energy system", which the Board has requested the Meth Panel to review and will be known at the end of the EB 32nd meeting.

We would require to wait till the 32nd meeting which would be held in the 1st week of July after which we can be back on the job. As you understand , we would now require to work on the PDD in line with the new methodology. Ms Payal Ghosh shall be the main person working on the project from now on. I have also marked a copy to her.

Please feel free to contact us for any further clarifications and also appreciate your patience and your cooperation rendered for this long wait.

Regards
Partha
