Letter of Business Communication

To the Tianjin Zhenxing Cement Co., Ltd.,

Your company have already opened a business banking account and, as our customer, you have applied for additional loan of 38.7 million Yuan for the low temperature waste heat based power station. However, considering the fact that you have a large amount of existing loan unpaid to our bank now, and the strict control on the loan limit applied by our bank recently, we decided that we would not provide the loan as per your request.
