关于请求支持云南省福贡县古泉河水电站 申请 CDM 项目的请示

怒江州人民政府：

我公司云南省福贡县古泉河水电站项目正在上报申请可研核准，虽然项目经济指标一般，但我公司从相关网址获得清洁发展机制（CDM）的相关信息，得知可以通过出售和转让温室气体减排量的方式，增加项目收益，提高经济指标。公司内部董事会决策中通过了申请 CDM 项目的决议，目前正在跟相关咨询单位洽谈。如果能够获得 CDM 项目收益，本项目的内部收益率将得到改善，贷款还本付息能力得到提高。因此，特向州人民政府提出申请，以支持我公司本项目申请 CDM 项目的相关工作。

The Asking for Instruction Letter of Apply Yunnan Fugong Guquan River Hydropower Station as CDM Project

People's Government of Nujiang Prefecture:

The Yunnan Fugong Guquan River Hydropower Station is applying for approval for feasibility report study. Since the financial index of this project is not so good, we have comprehended the relative information about CDM in the internet, that the project could increase the revenue through selling and transferring the greenhouse emission reduction and the financial index could be increased. The board of our company has decided to apply for CDM project, at present, we are discussing with the relative consulting entity. If we could acquire the CDM revenues, the Internal Rate of Return could be improved, the ability for paying back loan could be strengthened. Therefore, we hereby present apply for the government to support the work as applying CDM project.
