Subject past communications

Dear Prabir,

These are some of the mails that I have managed to retrieve from the past records. In case you find any other mails from Mr. Naveen of AML pl fwd me the same.

It will be helpful in justifying the comments received from TR of SGS.

regards,

Payal

Subject Proposition for Projects at Adhunik Metaliks Limited

Dear Mr. Naveen,

I understand your concern for the project. But please be informed that this is our perspective on the project after taking into consideration the recent developments occurring at the Executive Board. We are in the process of developing a methodology for one of our clients and will take into account all aspects of this particular project.

Assuring you of the best of services always.

Regards

Partha

Subject concern

Dear Mr. Chaudhuri,

This is with respect to the Waste Heat Recovery Based Captive Power Project of Adhunik Metaliks Limited. As per our initial discussions, we understood that the project is applicable under ACM0004. Documentations in this regard were almost being finalised. Umashankar has also provided me the Draft PDD for my review. But during the course of discussion with him (also find the mail from him appended below) I have gathered that we may require to submit a new methodology. If this holds true, then the timelines would absolutely be haywire. I would require your intervention in this case as this is becoming very difficult on my part to convince our Management regarding this sudden development.

regards
Naveen.

Subject Draft PDD

Dear Mr.Naveen,

Please find enclosed the Draft PDD for your feedback. Certain portions of the PDD have been highlighted which requires a discussion. Please confirm the same.

Also in line with the recent development at the Executive Board level we would require a dscussion regarding the applicability of the project with the methodology ACM0004. Lets us discuss to finalise.

Regards
Umashankar.

Subject additional documents for Draft PDD.

Dear Naveen,

This is to inform you that we are in receipt of certain documents for the completion of the PDD. In addition to the same, please clarify/provide us with the following information:

1. Total Carbon Content of the coal used (Ultimate Analysis of the coal)
2. Percentage of blowdown loss has been assumed to be 3 %. Please confirm.
3. Operating Condition of CFBC (temp and pressure).

We will be sending you across the Draft PDD for your review within a month after we receive the information from your end

Regards
Umashankar

Subject Site visit

Dear Mr.Naveen,

As per our discussions, this is to inform you that we would be leaving for Rourkela today for the Site Visit of Adhunik Metalliks Limited . We would be boarding the Jnaneswari Express which is scheduled to leave Howrah at 22:55.

This visit essentially would aim at gathering all information required for completion of the documentation for the Waste Heat Recovery Based Power Generation under CDM and would require your kind cooperation for the same.

Regards,
