Monterrey, N.L. México

Attention: Mauricio Puente

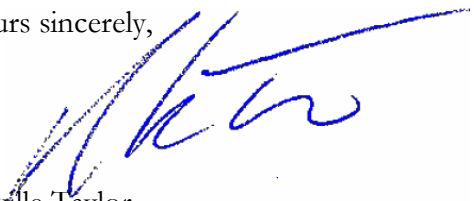

**Subject: Plascon Rated Destruction Capacity**

Dear Mauricio,

This letter is to confirm the rated destruction capacity of the Plascon unit, serial number M02005, supplied to Quimobásicos by SRL Plasma in 2006.

When the supplied Plascon is operated and maintained in accordance with the SRL Plasma manuals and guidelines, and used to destroy gas comprising a major proportion of HFC-23, with up to 25% v/v HCFC-22, at feed rates of up to 60kg/h, the destruction efficiency of the fluorocarbons by the Plascon will be equal to or greater than 99.99%. This destruction efficiency will not be compromised if the incoming feed gas has up to 20% v/v entrained air in addition to the HFC-23 and HCFC-22.

Yours sincerely,

Neville Taylor  
General Manager  
SRL Plasma Limited
