“煤气综合利用发电项目”贷款申请复函

Title: Reply to Loan Application  
on wasted gas based Captive  
Power Project of Xingtai Longhai  
Steel Group Co., Ltd.

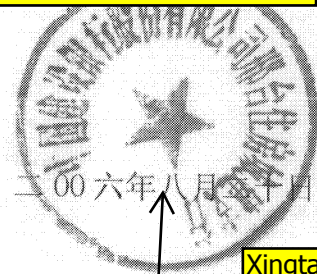

邢台龙海钢铁集团有限公司：

贵公司就“煤气综合利用发电项目”于2006年6月20日送交我行贷款申请  
函已经收悉。我行已于2006年7月对该项目进行调研，经过内部讨论后慎重作  
出以下结论：

由于该项目属于利用钢铁生产过程中富余煤气回收发电项目，根据项目可行  
性研究报告和现场调研情况，项目投资规模较大，存在不确定风险较多，而该  
项目抗风险能力有限。因此我认为，该项目暂不符合贷款条件，故决定不对该  
项目予以贷款支持。

特此复函

The project is to generate electricity by recovering the waste  
gas from steel production process. According to the Feasibility  
Study Report and on-site investigation, the project requires so  
large amount of money and contains many uncertainty factors.  
So its anti-risk ability is weak. Therefore the project does not  
meet the loan terms from our bank's view, our bank decided  
not to provide loan to support the project.
