**Initial Verification and Verification of the  
First Monitoring Period**

**of the**

**“Onyx Alexandria Landfill Gas Capture and Flaring Project”**  
CDM registration number 0508

**Report No. 1099811, Version 1**

**21 December 2007**

**TÜV SÜD Industrie Service GmbH  
Carbon Management Service  
Westendstr. 199 - 80686 Munich - GERMANY**

## **CERIFICATION STATEMENT**

TÜV SÜD Industrie Service GmbH has performed a verification of the CDM project: “Onyx Alexandria Landfill Gas Capture and Flaring Project”. The verification is based on the currently valid documentation of the UN Framework Convention on Climate Change (UNFCCC). In this context, the relevant documents are the “Marrakech Accords”.

The management of Veolia Propertè – Veolia Environmental Services is responsible for the preparation of the GHG emissions data and the reported GHG emissions reductions of the project “Onyx Alexandria Landfill Gas Capture and Flaring Project” on the basis set out within the project Monitoring Plan indicated in the final PDD version dated April 2006. The development and maintenance of records and reporting procedures is in accordance with that plan. The calculation and determination of GHG emission reductions from the project is in the responsibility of the management of the project.

The verifier confirms that the project is implemented as planned and described in validated and registered project design documents and complies with the underlying methodology version. Installed equipment being essential for generating emission reduction runs reliably. The monitoring system is in place and the project is ready to generate GHG emission reductions.

The verifier can confirm that the GHG emission reduction is calculated without material misstatements. Our opinion relates to the project's GHG emissions and resulting GHG emissions reductions reported and related to the valid and registered project baseline and monitoring, and its associated documents. Based on the information we have seen and evaluated, we confirm the following statement:

Reporting period: From 15-12-2006 to 30-09-2007

Verified emission in the above reporting period:

|                      |                           |
|----------------------|---------------------------|
| Baseline emissions:  | 22,524 t CO <sub>2e</sub> |
| Project emissions:   | 4,700 t CO <sub>2e</sub>  |
| Emission reductions: | 17,824 t CO <sub>2e</sub> |
