Dear Dr. Thomson

**Re: Letter of Authorisation for CDM Programme of Activities "Energy Efficient Stoves Program (EESP)"**

Reference is made to the above-captioned subject and to your letter requesting host country authorisation of the Programme of Activities (POA) on Energy Efficient Stoves Program (EESP).

The CDM Advisory Panel convened by the Designated National Authority ("DNA") on November 03, 2015 considered the stated PoA registered on 17 October 2013. According to the recommendation given by this Panel, we would therefore like to confirm that:

- (i) The Federal Democratic Republic of Ethiopia ratified the Kyoto Protocol in February 2005 and has ratified its Doha amendment on June 2015.
- (ii) This project is in line with the national development objectives of Ethiopia and thus its continued implementation contributes to the sustainable development of the country.
- (iii) The proposed project for carbon credits under the Clean Development Mechanism (CDM) is approved as seen as appropriate by the Designated National Authority of Ethiopia
- (iv) World Vision Australia is a project participant and the new coordinating/managing entity (CME) replacing Standard Bank Plc and authorized to sell the title and all rights to the greenhouse gas emission reduction generated by this project.
- (v) World Vision Ethiopia is a project participant and this is of voluntary participation in the proposed CDM project.

Yours sincerely
