

Certification statement

TUV Rheinland (China) Ltd., the DOE, has performed the 1st periodic verification of the registered CDM project activity (No. 2924), “Ningxia Federal Solar Cooker Project” in P.R.China. The project activity is designed to generate emission reductions by utilizing the solar thermal energy from the designated solar cookers.

The verification was performed to identify the compliance of the project activity with implementation and monitoring requirements, and to verify the actual amount of achieved emission reductions.

The verification is based on:

- PDD/ Version 19, registered with the CDM Executive Board on 12-12-2009;
- Approved monitoring methodology AMS-I.C. “Thermal energy for the user with or without electricity”, Version 13;
- Monitoring report/ Version 4, dated 31st October 2011;

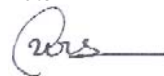

This statement covers verification period of around 8 months between 12th February 2010 and 31st October 2010.

The DOE has raised 4 clarifications and 0 corrective action requests, all of which have been successfully resolved by PPs. A Forward action request has been also raised and shall be addressed and verified during the next periodic verification.

The DOE, herewith certifies that the project activity, achieved emission reductions by sources of GHG equal to 32,067 tCO₂ and all monitoring requirements have been fulfilled.
