

**Response to the finding  
for the CDM project activity**

**Response to the finding for the CDM project activity  
"Bundled Charmadi Mini Hydrel and Aniyur Hole Small Hydro  
Project at Karnataka, India" (10100)**

2015-02-18

Dear UNFCCC Representative,

The DOE TÜV Rheinland (China) Ltd. was informed on 10<sup>th</sup> February 2015 that the CDM project "Bundled Charmadi Mini Hydrel and Aniyur Hole Small Hydro Project at Karnataka, India" (10100), has a finding

We understand the issue raised in the "completeness check" and we further provide our response towards the issues raised.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Henri Phan'.

Mr. Henri Phan  
DOE Manager  
TÜV Rheinland (China) Ltd.

Issue 1 raised:

**Query:**

There is an inconsistency of project participant between the LoA (Prasanna Power Limited) and the rest of the submitted documents (International Power Cooperation Private Limited). In order to clarify the change of name of project participant from 'Prasanna Power Limited' to 'International Power Cooperation Private Limited', kindly submit a validating letter from the authorizing DNA which should clearly state that the name of the entity has changed. The letter should include the former name and the new name of the entity, a new LoA to include both the former name and the new name of the project entity would also be accepted; this will align the information stated in other related documents submitted for this project. Kindly clarify and send us an addendum to the LoA.

**Response:**

The inconsistency in the Project Participant's name is due to the fact that "the SPVs (Prasanna Power Limited (PPL) & Thrinethra Energy Conversions Limited (TECL)) under which the two hydro power plants of this CDM bundle project were started and later on merged into the parent company (International Power Cooperation Private Limited (IPCPL)) through High Court Order dated 04th April 2014.

The SPVs (Special Purpose Vehicles) PPL & TECL were constituted for regulating construction & operation of the hydro power projects "Aniyur Hole Small Hydro Project (6MW) and Charmadi Mini Hydel Scheme (4.5 MW) respectively.

All the approvals relating to the projects were on the names of PPL & TECL as same in the case of LoA from authorizing DNA.

However, through the High Court order these two companies (PPL & TECL) were merged into IPCPL. In the "Scheme of Amalgamation" by the court it is clear that every approval unconditionally is transferred to IPCL from both PPL & TECL. (Ref: Page 14 & 15 Para 4.1 of the Court order)

-- End --
