**RE: LETTER OF APPROVAL – OPTIMISATION OF KIAMBERE HYDRO-POWER PROJECT**

Reference is made to your letter of April 2008 Ref. MD/RAD/ES-CDM/014/EN/pk in which you have requested that the above-mentioned project be allowed to proceed as a Clean Development Mechanism project.

We wish to confirm that Kenya is Party to the Kyoto Protocol and that participation in CDM project activities is voluntary.

We note that under this project KENGEN is undertaking an optimisation initiative at the existing Kiambere Power Station to increase the machines output by about 20 Mega Watts of power.

We wish to note and confirm that this project amongst other issues will contribute to the sustainable development of the country through its facilitation of the development of more environmentally friendly energy for Kenya and assist in increasing the energy security for the country. We therefore have no objection to this project proceeding as a Clean Development Mechanism project.

It is however to be noted that the project must comply with all the required national regulatory and/or planning requirements.

**DR. A. MUUSYA MWINZI**
