

亚行办、寺河煤层电厂： ADB office and Sihe Coal Mine power plant:

接到你处采购甲烷浓度监测仪表的通知，我们向许多制造厂家和代理公司发出了招标邀请或询价信。遗憾的是，根据我们得到的反馈信息，目前市场上无厂家或经销商提供 1.5%精度要求的甲烷浓度监测仪表。国内厂商生产的甲烷浓度监测仪表，精度最高可达 3-5%左右。国外的技术水平精度最高可达 2-3%，但价格相对较高。

请你处再次确认要求采购的甲烷浓度监测仪表的精度，以便我们尽快安排招标采购。

There is no manufacturer or distributor able to provide methane concentration meter with accuracy level 1.5% in the market to date. The methane concentration meter produced by domestic manufactures can only reach an accuracy level up to 3-5%. Foreign technology can reach accuracy up to 2-3%, however, the price is relatively high.
