

Certification Report

Kotla Hydro Power Limited

Initial Verification and 1st Periodic Verification

of the

“Babanpur, Killa and Sahoke Mini Hydroelectric Projects”

Report No. 812590, Version 01

3 May 2006

**TÜV Industrie Service GmbH TÜV SÜD Group
Carbon Management Service
Westendstr. 199 - 80686 Munich - GERMANY**

1 CERTIFICATION STATEMENT

TÜV Industrie Service GmbH TÜV SÜD Group has performed a verification of the CDM project: “Babanpur, Killa and Sahoke Mini Hydroelectric Projects”. The verification is based on the currently valid documentation of the UN Framework Convention on Climate Change (UNFCCC). In this context, the relevant documents are the “Marrakech Accords”.

The management of Kotla Hydro Power Limited is responsible for the preparation of the GHG emissions data and the reported GHG emissions reductions of the “Babanpur, Killa and Sahoke Mini Hydroelectric Projects” on the basis set out within the project Monitoring and Verification Plan indicated in the final PDD version dated February 2006. The development and maintenance of records and reporting procedures in accordance with that plan, including the calculation and determination of GHG emission reductions from the project is the responsibility of the management of the project.

The verifier confirms that the project is implemented as planned and described in validated and registered project design documents. Installed equipment being essential for generating emission reduction runs reliably and is calibrated appropriately. The monitoring system is in place and the project is ready to generate GHG emission reductions.

The verifier can confirm that the GHG emission reduction is calculated without material misstatements. Our opinion relates to the project’s GHG emissions and resulting GHG emissions reductions reported and related to the valid and registered project baseline and monitoring, and its associated documents. Based on the information we have seen and evaluated we confirm the following statement:

Reporting period: From 01-07-2004 to 31-03-2006

Verified emission in the above reporting period:

Baseline emissions: 10.527 t CO₂ equivalents

Project emissions: 0 t CO₂ equivalents

Emission reductions: 10.527 t CO₂ equivalents

Munich, 2006-05-03
