**Subject:** CDM for Siam Modified Starch

Dear Ms.Kyoko T.

My name is Thamrongrat B., I am an Overseas Coordinator for Siam Modified Starch(SMS) and Siam Quality Starch (SQS). We met during your presentation of CDM to the Thai Tapioca Association but I did not have my name during that time. Our management is interested in the information you presented and would like to find out more information from you or your company. Would it be possible that during your next visit to Thailand, you can spare some time for our group of companies. If so, can you please indicate your next visit.

FYI Siam Modified Starch and Siam Quality Starch is majority own by a Thai company called Poon Phol group. In their group they also have a Soy Bean Oil milling plant call "Thanakorn Vegetable Oil" and Mung Bean Milling Plant. I am sure that these two companies will also like to join the meeting.

You can find our information for our group of company for following website
