Reference No. 088868

CDM Registration and Issuance
UNFCCC Secretariat

Dear CDM Team:

**Re: Request for Review – Request for registration 4352
Bundled Solar Power Project by EKI Energy Services Limited (EKIESL-CDM.July-14-01)**

Four identical requests for review were received from members of the Board of from a Party involved, with respect to the proposed CDM project activity 4352 Bundled Solar Power Project by EKI Energy Services Limited (EKIESL-CDM.July-14-01). For ease of consideration, the request is italicized followed by the Project Participant/DOE's response.

UNFCCC CDM Request:

- 1) *In page 17 of validation report, the DOE has stated that it has checked the UNFCCC acknowledgements via the Prior Consideration of the CDM search engine and concluded that the project information were provided accurately and thus the present project activity is in line with paragraph 115 of VVS Version 09. However, it has been observed that the information in the Prior Consideration Form of the following subbundles does not correspond to that in the PDD/validation report/Bundle Form:*
 - i. *Birla subbundle: the investor, installed capacity and location stated in the PDD/validation report/Bundle Form are Birla Corporate Limited, 1.5 MW and Madhya Pradesh state, whereas those stated in the Prior Consideration Form are Olympic Laminates Pvt. Ltd. and MEGHDEV enterprises, 12.5 MW and Gujarat state.*
 - ii. *Gupta Sons subbundle: the installed capacity stated in the PDD/validation report/Bundle Form is 0.5 MW, whereas the capacity stated in the Prior Consideration Form is 6 MW.*

The DOE is requested to further substantiate how it has validated the serious prior consideration of the sub-bundles 1 and 4 (i.e., Birla and Gupta Sons). Please refer to VVS version 9 paragraph 115, 119 and 120.

Project Participant Response:

As per para 99 a) of PCP, the PP has revised the PDD and removed investors Birla Corporation Limited, Porwal Auto Components Ltd, and Gupta Sons from the proposed project activity as currently those investors do not want to be part of proposed project activity. Thus in final PDD, only Bidar Solar Power Pvt. Ltd. is acting as investor. The ReXchange Global Solutions (P75) remains as PP for this project activity.

GHD DOE Response:

The Project Participant informed GHD that three of the four project owners wished to be removed from the proposed project activity. The Project Participant provided GHD with a written assertion of this same information, and a revised PDD (Version 06). GHD reviewed the revised PDD (both tracked and clean versions), verified that only one project owner remained, and revised the validation report accordingly. With the removal of three project owners, the issue from the CDM request is no longer applicable.

Should you have any questions or comments on the above, please do not hesitate to contact us.

Sincerely,

GHD
