Request for Registration/Issuance Incomplete Reason (1)	
Scope and Issue raised by the UNFCCC Secretariat:	<p>1: Scope: The verification and certification report does not provide a summary of the verification process, the scope of verification and the conclusion as per VVS version 09.0 paragraph 409 (a).</p> <p>Issue: In line with the Implementation plan for new CDM regulations, If a request for registration or issuance following the old regulatory framework was submitted by 28 March 2018 and is resubmitted on or after 29 March 2018 after the completeness check or the information and reporting check by the secretariat, the request may still follow the old regulatory framework, provided that the resubmission is made within 90 days. This request for issuance was submitted on 23/07/2018 which is later than 29/03/2018 and it is not within the 90 days from the previous submission dated 16/10/2017.</p>
Response by DOE:	<p>In line with the Implementation plan for new CDM regulations, if the new regulations are to be followed VVS version 9.0 para 409 (a) is not applicable. However the latest template CDM-VCR-FORM version 2.1 available in the CDM –UNFCCC site is used to prepare the Final Verification and Certification Report. The revised reports are submitted for the consideration of the board for further processing of the issuance request.</p>
