

 <p align="center"><b>CDM: Form for Submissions on Small Scale Methodologies and Procedures (version 03)</b>  <i>(To be used for presenting questions/proposals/amendments related to the simplified methodologies for small-scale CDM project activity categories)</i></p>	
Name:	Daniel Martino Institution: <u>Carbosur S.R.L.</u>
Affiliation <sup>1</sup> :	<input type="checkbox"/> DNA <input type="checkbox"/> DOE <input type="checkbox"/> PP <input checked="" type="checkbox"/> Stakeholder
Title/Subject (max. 200 characters):	Request for Revision SSC Methodology I.C version 18
Purpose of the submission:	<input type="checkbox"/> Query on an approved SSC methodology or small scale procedures <sup>2</sup> (Fill in field 1. below) <input checked="" type="checkbox"/> Request for Revision of an approved SSC methodology (Fill in fields 2. and 3. below) <input type="checkbox"/> Proposal for a new SSC methodology (Fill in fields 4. and 5. below)
Approved SSC methodologies <sup>2</sup> to which your submission relates to, if applicable.	Type I.C version 18
Contact Information (e-mail addresses to which the answers are to be delivered and phone contacts for possible dialogue on the submission).	Daniel Martino Mail: <u>daniel.martino@carbosur.com.uy</u> Phone: (598) 2915 3514
<b>Information for completing the form</b> Describe the questions related to the SSC Methodologies, Modalities and Procedures below. If the questions are related to a project under development or implementation, you may describe the context in which they arose.	
<b>Query on an approved SSC methodology or SSC procedures</b>	
1. If you have questions relating to the application of an approved small-scale methodology (AMS) please specify and provide reference to the exact technology/measure below. If you have questions related to procedures for SSC project activities please clarify below:	
>>	
<b>Request for revision of an approved SSC methodology</b>	
2. If you are proposing an amendment/revision to an approved small-scale methodology (AMS), please provide justifications below:	

<sup>1</sup> Designated National Authority (DNA); Designated Operational Entity (DOE); Project Participant (PP), and Stakeholder.

<sup>2</sup> The list of all approved small-scale methodologies (AMS) can be found at <http://cdm.unfccc.int> and go to CDM: small scale CDM methodologies.

We hereby request the revision of the approved small scale methodology I.C, to broaden its applicability to include project activities that involve more than one boiler generating thermal and/or electrical energy.

On 7 July 2010 we submitted a query for clarification which was answered by SSC WG\_458 on 22 October 2010.

The SSC Working Group stated that “co-fired system” (foot-note 3 in I.C version 18) is considered as a single piece (e.g., boiler). Also, methodology AM0085 “defines co-firing as a simultaneous combustion of both: (i) biomass residues and (ii) fossil fuels in a single boiler”.

This definition and the interpretation by the Small Scale Working Group preclude the application of methodology I.C. to project activities in which a system composed by biomass fired boilers and fossil fuel fired boilers feed a steam collector system to produce thermal and electrical energy.

The proposal adds a new baseline scenario (paragraph 15 (i)) and the corresponding calculations of baseline emissions (new paragraph 32).

We note that the calculations of baseline emissions in the case of one boiler with a co-fired system (equation 4) are the same to those of a set of boilers (comprising biomass fired and/or fossil fuel fired and/or co-fired boilers) (new equation 5) applied to a single steam system.

3. If you are proposing an amendment/revision to an approved small-scale methodology (AMS) please provide the draft methodology with changes highlighted.

The following documents have been attached to this form:

- ☐ Draft methodology with changes highlighted in Word and PDF formats
- ☐ PDD in PDF format (sections A to C)
- ☐ Work sheet of efficiency calculations for the new baseline scenario proposed applied to a project activity with several boilers.

### Proposal for a new SSC methodology

4. If you are proposing a new small scale methodology, please provide justifications below:

5. For submitting a new small scale methodology a filled in form “CDM: form for proposed new small scale methodologies (F-CDM-SSC-NM)” is required.

The following documents have been attached to this form:

- ☐ Completely filled in form “CDM: form for proposed new small scale methodologies (F-CDM-SSC-NM)” in Word and PDF formats<sup>3</sup>
- ☐ A draft PDD (with sections A to C completed):
  - ☐ Relevant annexes to the PDD are provided
  - ☐ Additional information (please specify if you are providing any information note, published paper or a report in support of the new SSC methodology)

Date you are delivering the contribution:

16 November 2010

### Information to be completed by the secretariat

SSC-Submission number

<sup>3</sup> The current version of the form (F-CDM-SSC-NM) is available on the UNFCCC CDM website (<http://cdm.unfccc.int>).
