<p align="center"><b>Query on an approved SSC methodology or SSC procedures</b></p>	
1. If you have questions relating to the application of an approved small-scale methodology (AMS) please specify and provide reference to the exact technology/measure below. If you have questions related to procedures for SSC project activities please clarify below:	

<sup>1</sup> Designated National Authority (DNA); Designated Operational Entity (DOE); Project Participant (PP), and Stakeholder.

<sup>2</sup> The list of all approved small-scale methodologies (AMS) can be found at <http://cdm.unfccc.int> and go to CDM: small scale CDM methodologies.

On 05/10/2010, Promethium Carbon submitted a request to the Executive Board regarding clarification of the term 'community' in EB 54 Annex 15.

The Executive Board responded on 13/01/2011 with the following:

'With regard to your enquiry, kindly be informed that there is no standard definition of the term "community" available in the Glossary of CDM terms [http://cdm.unfccc.int/Reference/Guidclarif/glos\\_CDM.pdf](http://cdm.unfccc.int/Reference/Guidclarif/glos_CDM.pdf) or other CDM documents. We therefore recommend that the issue is explained to the validating DOE or that a request for clarification be submitted to the small scale working group <http://cdm.unfccc.int/Panels/index.html> according to the relevant procedure [http://cdm.unfccc.int/Reference/Procedures/methSSC\\_proc01\\_v01.pdf](http://cdm.unfccc.int/Reference/Procedures/methSSC_proc01_v01.pdf).'

For this reason, we now submit a clarification request to the small scale working group regarding EB 54 Annex 15: 'Guidelines for demonstrating additionality of renewable energy projects =<5 MW and energy efficiency projects with energy savings <=20 GWh per year'.

With reference to point 3 (b), the guidelines state that 'the project activity is an energy efficiency activity with both conditions (i) and (ii) satisfied (see below);

- (i) Each of the independent subsystem/measure in the project activity achieves an estimated annual energy savings of equal to smaller than 600 megawatt hours; and
- (ii) End users of the subsystem or measure are **households/communities**/SME.'

Please can you define the term 'household/community'. Can it refer to a (special needs) residential centre (that caters for either long term and/or ongoing short term residents)? For example:

- (a) Hospice and special needs hostel;
- (b) Physical and mental care and rehabilitation centre;
- (c) Homeless shelter;
- (d) Nursing home and old age hospice;
- (e) Youth care shelter;
- (f) Correctional facility.
