<b>Information for completing the form</b>	
Describe the questions related to the SSC Methodologies, Modalities and Procedures below. If the questions are related to a project under development or implementation, you may describe the context in which they arose.	
<b>Query on an approved SSC methodology or SSC procedures</b>	
1. If you have questions relating to the application of an approved small-scale methodology (AMS) please specify and provide reference to the exact technology/measure below. If you have questions related to procedures for SSC project activities please clarify below:	

<sup>1</sup> Designated National Authority (DNA); Designated Operational Entity (DOE); Project Participant (PP), and Stakeholder.

<sup>2</sup> The list of all approved small-scale methodologies (AMS) can be found at <http://cdm.unfccc.int> and go to CDM: small scale CDM methodologies.

Dear UNFCCC Secretariat,  
Dear SSC-WG members,

This request is concerning the applicability of the “*guidelines for demonstrating additionality of renewable energy projects =<5 MW and energy efficiency projects with energy savings <=20 GWh per year*” (hereafter referred to in this form as the “*Guidelines*”) to a SSC-PoA and its SSC-CPAs.

Together with different stakeholders, GreenStream Network is developing CDM SSC Programmes of Activities in the areas of household biogas, household solar water heating, household solar cookers, municipal street lighting efficiency, municipal solar street lighting, household CFL lamp distribution, energy efficiency in municipal waste water treatment plants, integrated municipality solid waste management, municipal centralized biogas plant, municipal landfill gas recovery, etc. The SSC-POAs will use the approved SSC-methodologies: AMS-I.C, AMS-I.D, AMS-II.C, AMS-III.G, and AMS-III.AO, either in single application or in combinations.

GreenStream Network is seeking clarification on how the “Guidelines for Demonstrating Additionality of Renewable Energy Projects =<5 MW and Energy Efficiency Projects with Energy Savings <=20 GWH per year” can be applied to SSC-PoA:

- 1 Can projects that are installed on municipal properties (e.g.landfills, streets, waste water treatment plants) be considered to have communities or households as end users, with regard to paragraph 2.(c).(ii) and/or 3.(b).(ii) of the Guidelines?
- 2 If each SSC-CPA under a given SSC-POA fulfils the size restrictions of the Guidelines and these size restrictions are included under the eligibility requirements in sections A.4.2.2 and E.5.1 of the SSC-POA-DD, is this sufficient proof of additionality for the PoA as a whole?
- 3 Is it possible for a SSC-CPA to set ex-ante size limits, i.e. before installation of the subsystems, to ensure that the CPA will stay within the size restrictions of the Guidelines?
- 4 After a SSC-PoA is registered, can a SSC-CPA be added after equipment is already installed? We understand that the crediting period would only start after the SSC-CPA has already been included into the SSC-PoA.

Sincerely Yours,

### Request for revision of an approved SSC methodology

2. If you are proposing an amendment/revision to an approved small-scale methodology (AMS), please provide justifications below:

>>

3. If you are proposing an amendment/revision to an approved small-scale methodology (AMS) please provide the draft methodology with changes highlighted.

The following documents have been attached to this form:

- ☐ Draft methodology with changes highlighted in Word and PDF formats
- ☐ PDD in PDF format (optional)
- ☐ Additional information (please specify if you are providing any information note, published paper or a report in support of the request for revision of the SSC methodology)

### Proposal for a new SSC methodology

4. If you are proposing a new small scale methodology, please provide justifications below:

>>

5. For submitting a new small scale methodology a filled in form "CDM: form for proposed new small scale methodologies (F-CDM-SSC-NM)" is required.

The following documents have been attached to this form:

- ☐ Completely filled in form "CDM: form for proposed new small scale methodologies (F-CDM-SSC-NM)" in Word and PDF formats<sup>3</sup>
- ☐ A draft PDD (with sections A to C completed):
  - ☐ Relevant annexes to the PDD are provided
  - ☐ Additional information (please specify if you are providing any information note, published paper or a report in support of the new SSC methodology)

*Date you are delivering the contribution:*

13/02/2011

**Information to be completed by the secretariat**

SSC-Submission number

<sup>3</sup> The current version of the form (F-CDM-SSC-NM) is available on the UNFCCC CDM website (<http://cdm.unfccc.int>).
