

Views from Parties on the term and mandate of the Consultative Group of Experts (CGE) and the need for continuation of the group

Angola as just conclude the National Communication in the hand of 2011, witch was submitted in the beginning of 2012. To conclude this work the support provided by the Group was extremely important in terms of providing training and opportunities to exchange with other countries lessons, experiences and best practices.

As develop and LDC country the existing capacity to deal with National Communication still very limited and the training programme of CGE is fundamental element and opportunity to continuing address this country need. To assist on next Communication reports and other challenge around the implementation of the convention.

Very few bodies in the convention are very engaged on training and there very few opportunities out side of the convention who can provid that. The continuation and stragen of CGE would assist countries like Angola to meet the commitments to the convention
