

How many of 7100 cities have an UCEEP in place? With less than 100 days before COP22 after the outcome of the Habitat III, what can be done?

Pre-2020 action is to sync the three urban agreements;

- The Paris Agreement
- Agenda 2030, SDG Goal 11 Sustainable Cities and Communities
- Habitat III agreement the "New Urban Agenda"

Habitat III conference in Quito in October has released the fourth draft of the "New Urban Agenda" to be agreed on in October 20th. View the Surabaya draft of the New Urban Agenda - 28 July 2016 here: <https://www.habitat3.org/zerodraft>

The draft is 22 pages consisting of 165 paragraphs. The version as of 28 July contained new changes,

- A string dedicated paragraph 7 in the Declaration recognizing 2nd local and regional governments and their 2nd World Assembly.
- A totally new Section C Follow-up and Review (page 20) containing numerous brackets as well as 2 options in para.164 regarding options the way forward for strengthening UN Habitat.

Priority submission - HABITAT III DRAFT NEW URBAN AGENDA 28 July 2016

PLEASE IDENTIFY THE TEN MOST CLIMATE NEGATIVE PARAGRAHPS TO BE SYNKED WITH THE CONTENT OF THE COP21 PARIS AGREEMENT. GO BACK INTO THE HABITAT III PROCESS WITH A FIRM APROACH WITH ALTERNATIVE TEXT GUIDANCE. To aggregate urban emission pathways consistent with holding the increase in the global average temperature to well below 2 °C above preindustrial levels and pursuing efforts to limit the temperature increase to 1.5 °C.

My advice is COP22 have a presence at these two conferences below;

World Summit of Local and Regional Leaders 12th to the 15th of October in Bogota'. Special event - World Assembly of Local and Regional Governments 16th of October in Bogota'.

Habitat III conference in 17-20 October Quito

Secondary submission - The role of the high-level city champions

7100 Mayors are our new leaders and role models, these must act up and show a lifestyle equivalent the behaviour change that is all upon us. For us to trust the leaders the must show the way in low-carbon lifestyle.

From another strong COP22 meeting, the Key Events should completely merge foundational basic elements one New Urban Agenda (Habitat III) / **#Agenda2030** (Global Goals) emissions consensus especially with #Goal11 in sustainable (low-carbon) cities. United Nations Framework Convention on Climate Change - Call for Submissions to Parties and Non-Party Stakeholder Climate High-level Champions (Joan of arc la revitalasion la climat)

Dear Minister Ms. Hakima El Haite, Ambassador Ms. Laurence Tubiana

(views of Parties and non-Party stakeholders on our road map for the global climate action agenda)

Please find attached Climate Change Centre Reading's (CCCRdg) comments on the list of two priority submissions on the road map for Global Climate Action (as of 29 July 2016).

Currently leading up the high-level event at COP22 by preparation draft boards regarding - Global Climate and Sustainable Urban Opportunities (Development) Expectations etc.
